

ARTISTIC MOLDING & TRIM PROFILES

As the leading prefinished hardwood molding manufacturer, Artistic Finishes is dedicated to producing the finest, color-coordinating wood moldings that will make any room truly remarkable.

Why settle for less?

Artistic Finishes offers a broad range of molding profile shapes and sizes to accomplish even the most challenging transition. Designed to the highest engineering specifications, each of the 90+ molding profiles is guaranteed for a lifetime.

BASE SHOE

Transitions between a wood floor and a vertical surface under cabinetry. Also serves as a substitute for quarter round when space is limited.

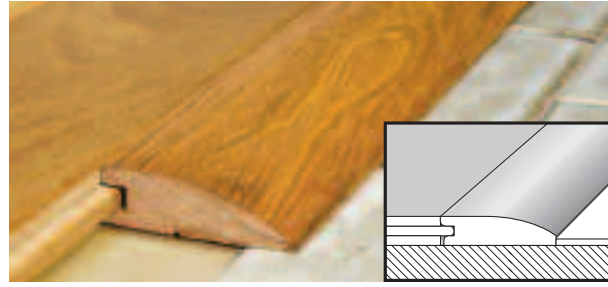

QUARTER ROUND

Creates a subtle blend between the wall base and wood flooring. Also used alone to make the transition between a hardwood floor and cabinetry.

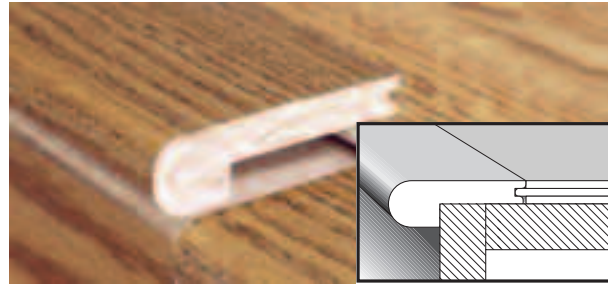

FLUSH REDUCER

Provides a smooth transition between floors of different heights. Perfect for connecting wood flooring with vinyl or low pile carpet.

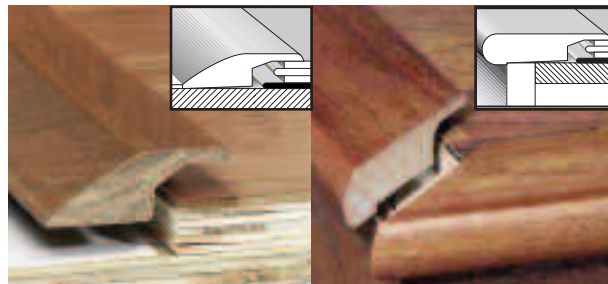

FLUSH STAIR NOSING

Adds a professional, finished look to a hardwood staircase. Designed to catch the brunt of foot traffic abuse, while adding to the beauty of each step.

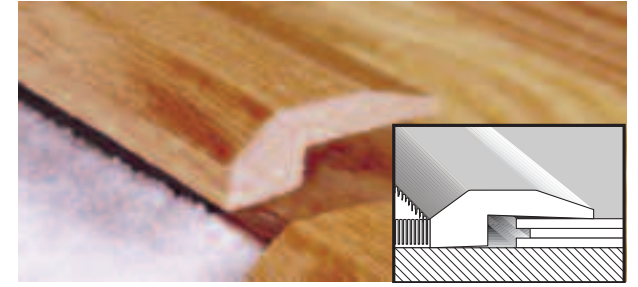

OVERLAPS - REDUCER & STAIR NOSE

Used for floating floor applications to provide a smooth transition, while allowing the flooring to expand and contract. Various sizes available.

THRESHOLD

Ideal for doorway applications and for transitioning between floors of different heights. Used with hardwood flooring, tile or carpet surfaces.

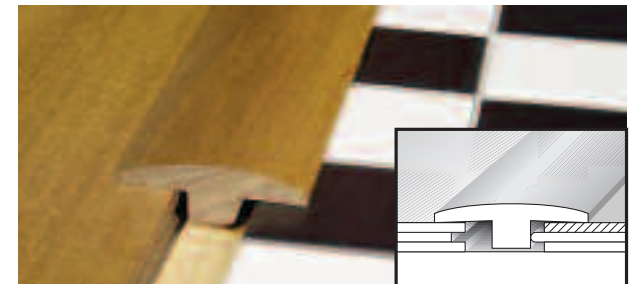

WALL BASE MOLDING

Borders the hardwood floor for a formal, finished appearance. Provides a sharp and neat juncture between the wood floor and wall.

T-MOLDING

Provides an attractive solution for blending floor surfaces in adjoining rooms. Used in doorways and borders where floors of similar thicknesses meet.

PREFINISHED HARDWOOD ARTISTIC MOLDINGS

Artistic Finishes' color coordinating, prefinished architectural wood moldings and trim complement virtually all manufacturers' hardwood flooring collections. Maximize the beauty of your flooring investment and witness *The Artistic Touch*® difference.

- ▲ Molding profile shapes to complete even the most challenging transition or application
 - Over 90 molding profiles available

 - Widest range of domestic and exotic wood species available
 - Unfinished, natural, stain, distressed, wire brushed and handscraped finishes
 - Designer molding series coordinates with tile, slate, stone, vinyl and cork.
- ▲ Premium quality hardwoods are hand selected for their rich natural grains.
- ▲ Environmentally friendly, water-based stains and high-tech, UV-cured Aluminum Oxide topcoats provide superior scratch resistance and surface hardness.
- ▲ Complete with Lifetime Residential Warranty

RESIDENTIAL LIMITED WARRANTY

Warranty Coverage

Artistic Finishes, Inc. warrants to the original purchaser that Artistic moldings will be free of defects in materials and workmanship; however the moldings are not warranted against excessive force, heavy foot traffic or accidental breakage. In the event of excessive warping, delamination or loss of factory finish adhesion while used under normal conditions, Artistic Finishes will replace the molding for the lifetime of the original purchaser. Natural wood characteristics such as mineral streaks, small knots and grain variations are to be expected and are not considered defects.

Proper Care

Artistic Finishes' unique factory applied finish can be maintained with normal non-abrasive cleaning and damp mopping. No attempt should be made to sand or recoat prefinished Artistic moldings. Accordingly, any sanding, top-coating, recoating, or attempted refinishing of Artistic Finishes' factory applied finish will invalidate this warranty.
